PRAXIS AUSTRALIA

Promoting Ethics and Education in Research

PROgress Foundation Program: New Zealand

For Individuals Starting a Career in Clinical Trials

Step Into the World of Clinical Trials with Confidence

The PROgress Foundation Program is a three-month immersive online learning experience, designed to give you the foundational skills and knowledge needed to begin - or transition into - a career in clinical trials and health research.

Whether you're a graduate, early-career professional, or exploring a career change, this program provides the practical training, real-world context and nationally recognised credentials to help you take the next step.

What's Included

Five Self-Paced Online Flexible Courses
Build critical knowledge across essential clinical research topics:

- Good Clinical Practice (GCP) (TransCelerate Approved)
- National Statement on Ethical Conduct in Human Research
- Consent to Research
- Essential Documentation in Clinical Trials
- Data Management: Privacy, Security and Governance

Live Virtual Workshops
Engage in two live, interactive virtual workshops:

Clinical Trials 101: Part 1 and Clinical Trials Part 101: Part 2 - where you'll explore trial design, ethics, budgeting, and compliance with industry experts and peers.

Community of PRAXIS

Get 12 months of access to our private online forum. Connect, ask questions, and share insights with fellow learners and professionals across the research sector.

PRAXIS AUSTRALIA
